System Software Experiment 1

2016. 3. 4. Fri.
CNLAB (Computer Network LAB)

Research Areas

• Software-defined networks
• Visual light communication
• Future networks (Named-Data Networking)
• Mobile multi-hop wireless networks
• Delay/Disruption tolerant networks
• Cooperative communications
• Overlay networks
• Internet QoS (Quality of Service)
• Congestion Control

Prof. Ikjun Yeom
System Software Experiment 1

General Information
• Class room: Room No. 400112, 400202
• Class hour: Fri. 09:00 ~ 12:50
• TA (room: 85553)
  – Youngseok Lee (mkris0714@naver.com)
  – Sugi Lee (sglee0323@gmail.com)

Grading Policy
• Mid-term or Final-term (total): 45%
• Programming Assignments: 45% (Points: 10 / 5 / 0)
• Attendance: 10%
